

# ***Safety Takes You Further***

On 6th of January 2023, Mr Johasni was diligently carrying out closure duties at aircraft stand 604 when he spotted an unauthorised vehicle making its way down taxilane N4.

Recognising the white coloured vehicle as an anomaly, Johasni promptly intervened to safely halt the driver's progress, preventing the driver from advancing any further. He expediently reported this incident to the Airside Management Centre.

Johasni's exceptional situational awareness and swift response were crucial in averting a potentially perilous scenario where the unauthorised vehicle might have inadvertently entered an aircraft's path or cause an incursion. His actions were truly commendable!
