

Safety Takes You Further

On 28th of December 2022, Mr Md Eskandar Bin Md Hussin, and Mr Sheffir Iqbal Ahmed Bin Shakil Ahmed, observed smoke coming from their air tug while towing an aircraft from stand A1 to G20.

Together with Mr Lu Chun Ing, they promptly halted the towing operation, disengaged the air tug from the aircraft, and positioned it a safe distance away. Upon discovering a fire in the engine compartment, Eskandar effectively extinguished it.

The team's exceptional situational awareness and prompt actions averted a potential fire risk that could have endangered the aircraft.
