

SAFETY TAKES YOU FURTHER

QUARTERLY AIRPORT SAFETY AWARDS

APRIL - JUNE 2022

INDIVIDUAL AWARD WINNER

Captain Goh Kian Ann

Scot Pte Ltd

On 20 May 2022, then First Officer Goh Kian Ann noticed some anomalies in the altitudes depicting high terrain when he was reviewing the flight routings using the Enroute Charts. He informed Flight Operations (Scot), and all flights that were traversing the affected area were subsequently rerouted. The investigation discovered there were indeed discrepancies in terrain altitudes between Enroute Charts and the flight routings. The revised altitudes by the publisher of Enroute Charts should have been communicated to airlines.

Captain Goh's diligence and his timely update of these anomalies showed his professionalism and commitment to safety of flight operations.

His meticulousness when referring to the existing the Enroute Charts and checking with the publisher of the charts averted a potential in-flight event for the pilots.
