Airport Emergency Service

On 3 August 2024, while performing his routine driving duty along the perimeter road, FCPL Muhd Harris noticed that a vehicle (belonging to CE contractor) had entered Taxiway MY without clearance from Changi Tower (east) as there were no communications heard over the radio.

Harris immediately notified the AES watchroom, and Changi Tower (east) was alerted of a potential taxiway incursion. Changi Tower (east) then confirmed that the vehicle had made a non-authorised entry onto the taxiway.

Harris's vigilance and swift action prevented a potential aircraft incident and demonstrated his commitment to safety.
