On 27 May 2024, Mr. Thann Htike Aung and Mr. Govinthasamy Sasikumar were preparing to reopen a closed aircraft movement area when they saw a Code E aircraft on tow on Taxi lane N4 (downgraded to Code C). They noticed that the aircraft wing was near the ground elevation monitoring instrument in the work site.

The team immediately alerted their leader Mr. Mohamed Nazrul. The team confirmed with Airside Control Centre (ACC) that the restriction was still in force and ACC requested Changi Tower to investigate further.

The team's vigilance and timely reporting prevented a potential aircraft incident and demonstrated their commitment to safety.
