On 10 June 2024, Mr. Ong Ai Bin was refuelling the aircraft when he noticed that the PLB was very close to the aircraft door.

He stopped refuelling and quickly coordinated with Mr. Quek Han Chong to stop cargo loading operations, followed by alerting the flight crew of the hazard.

They then worked with the cargo officer to unload the aircraft so that a thorough inspection and functionality check of the aircraft door may be done before resuming operations.
